26. August 2016

Deadline Extension of Nieding + Barth Rechtsanwaltsaktiengesellschaft

Dear Participants of the Foundation,

On August 10 we informed you that Volkswagen AG is likely to argue that claims of investors affected by Dieselgate, will be time barred after September 18, 2016. Please be reminded that the registration of your claim on the website of the Foundation at least does not interrupt the German statute of limitation. The statute of limitation has to be evaluated on a case by case basis and the Foundation cannot provide such advice.

Following the advice of the Foundations' supporter Deutsche Schutzvereinigung für Wertpapierbesitz e.V. (DSW), Germany's oldest and largest association for private investors, the Foundation recommended its participants, who want to avoid in any case a dispute over the statute of limitation, to contact well-respected German law firm *Nieding + Barth Rechtsanwaltsaktiengesellschaft* (Nieding + Barth). Nieding + Barth offers thereby a collective action against Volkswagen. Also upon request of the Foundation Nieding + Barth now extended the deadline for instructing the firm **until September 15, 2016**.

For details please contact Nieding + Barth directly.

Best regards
